Enhanced Services

Intensive In-Home Services

This is a time limited intensive family preservation intervention intended to stabilize the living arrangement, promote reunification or prevent the utilization of out-of-home placement. These services are delivered primarily to children in their family's home with a family focus. This intervention uses a team approach and is time limited depending on the presenting stabilization needs of the youth and family

Day Treatment

Focuses on enhancing interpersonal relationships, and communications skills, the Day Treatment program builds on strengths and addresses identified functional problems of the complex condition of each child/adolescent and family. Interventions support symptom reduction and/or sustain symptom stability at the lowest possible levels. Services are available to children 5-17 years of age

Quality Care Solutions, Inc.

What Make Quality Care Solutions Inc. Different?

Quality Care Solutions, Inc. utilizes a holistic approach to mental health services. Our services go far beyond the scope of traditional mental health services. This approach is used to optimize the potential for positive and permanent change. Our approach is designed to address emotional, social, and academic needs of impressionable age groups, teenagers on their way to your adulthood, and adults. Our goal is to instill fundamental morals and values which will assist with laying the ground work for short term and long term success. Additional services provided by Quality Care Solutions Inc. includes:

Reading Assessments "No Child Left Behind"

This program provides assessments to determine reading grade level/determine effective interventions to increase reading/comprehension level.

Drug education

"NICteen Program"

A simulation program helps participants experience physical, mental, social, and financial consequences of drug addiction.
